

Our all-inclusive program is more than just a camp!

With daily team building activities and collaborative week-long projects, our campers feel more

like family! Unlike the academic school year, your school-age child won't spend the summer in a "race-to-the-top". Our summer camp focuses on the process of each activity, not just the product.

Our campers are able to explore their individual interests at their own pace while experiencing a pure camp experience that is as memorable, diverse and rewarding as we remember ours to be. **Building friendships, developing a love of learning and having fun** are the important values we emphasize, and with weekly field trips and exciting activities, our campers have the time of their lives!

A **typical day** consists of a balance between structured team activities with a focus on fun and time for campers to explore their own interests. Each week's activities include opportunities to spark campers' curiosity in the areas of science, technology, engineering, art, and math, (STEAM). Campers experience the value of perseverance and the pride of success while being challenged in a nurturing and fun-filled environment!

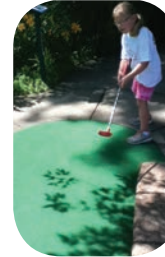

Our **camp lunch and snack menus** are specially designed to please school-age kids, and once a week we have a barbeque lunch... all the burgers and dogs you can eat!

Our **dedicated counselors** have many years of experience working with children of all ages and have been with our camp program for many years.

Bus departs from our Farmington location at 8:00am and arrives back to the Avon center at 5:15pm.

Care provided from 6:30am - 6:00pm

Theme Weeks

Week 1: EPC Infinity Originals June 17-21

Based on the well-known game, Disney Infinity, campers will build a real-life "skill tree" as they accomplish specific challenges while working independently or as a member of their team in the great outdoors.

Week 2: Amazing Race June 24-28

Campers will experience virtual tours of different countries from around the world, participating in friendly competition and celebrating diverse engineering, cultures and cuisine.

Week 3: Legendary Excavators

July 1-5 (closed July 4)

Based on the popular app, Terraria, campers will participate in an archeological dig. Using basic tools they will unearth lost artifacts in order to unravel an ancient mystery.

Week 4: Super Splash Campers July 8-12

Based on the Super Mario Brother's game, campers will earn and collect coins as they participate in wild water adventures throughout the week and construct a vast water wall.

Week 5: EPC Sports World July 15-19

Working as teams or with partners, campers will work collaboratively to strategize winning plays in a variety of popular and unique sporting events.

Week 6: Masters of the Universe July 22-26

Through diverse story lines, campers will develop the skills needed to solve problems and overcome obstacles while exploring the universe.

Week 7: Sensei Recyclers July 29-Aug 2

Campers will become real-life masters in the arts of reducing, reusing, recycling and repurposing, creating original works of art.

Week 8: Epic Engineers

Aug 5-9

Based on the popular video game, Minecraft, campers will brainstorm designs and work together to create 3D structures using a variety of building materials.

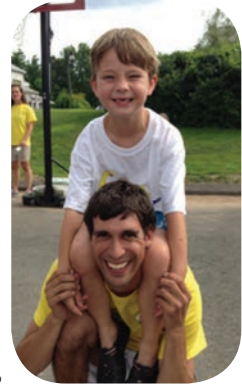

Week 9: Food Network

Aug 12-16

Campers will dive into fun and exciting new ways to make delicious and nutritious snacks, desserts, and meals.

Week 10: EPC-elodeon Aug 19-23

Campers will be challenged in creating and participating in game shows based on the classic Nickelodeon hit.
