

LEARNING AT HOME SCHOOL AGE WEEK 2

March 30th- April 3rd

Dear Families,

We are excited to launch plans for Week 2. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

STEAM

Science, Technology, Engineering, Art
and Mathematics

Boats

Use aluminum foil to let your child make boats. Make multiple boats with different designs. Try to float your boats in a bucket of water. If they float, start adding coins to see how many you can add before the boat sinks.

Science Experiment

Baking Soda and Vinegar Experiment

Let your child add baking soda to a cup. Put the cup on a baking sheet and add vinegar. Watch for the reaction. To extend this project, let your child make a volcano out of playdough and add do the experiment in the volcano.

Physical Literacy

Bowling

Using plastic cups and a ball, let your child set up pins (plastic cups) and roll the ball to bowl. Your child can do the regular bowling pin set up and challenge them to come up with different set ups for the pins.

LEARNING AT HOME SCHOOL AGE WEEK 2

March 30th- April 3rd

Sensory

Oobleck

Mix together cornstarch and water until it makes a substance that is a solid when you are manipulating it and a liquid when you are not. If your solution is too watery, add more cornstarch.

Creative Activity

Comb Painting

Give your child a comb, paper and some paint. Let your child use the comb as a paintbrush and make designs on their paper.

Additional Activities

Get Outside: Get outside with your child and go for a walk or a bike ride around your neighborhood.

Games: Play board games with your child. Encourage them to take turns while playing the games.

Special-Origami: Try out some origami ideas with your child. Encourage them to learn ways to make animals. There are some great origami ideas on Pinterest.
