

# LEARNING AT HOME SCHOOL AGE WEEK 5

April 20th-24th

Dear Families,

We are excited to launch plans for Week 5. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

## STEAM

Science, Technology, Engineering, Art  
and Mathematics

### Playdough and Marble Run

Using playdough, cups and a cookie sheet, let your child create a maze that they can get the marble down. Put the playdough right on the to create a maze or use the cups to create a 3D maze.

## Science Experiment

### Bridge Experiment

Using construction paper and materials found around the house, have your child build a bridge. Once they have a bridge built, have them test the strength of the bridge by adding items to the top of it.

## Physical Literacy

### Hop Scotch

Create a hop scotch in your driveway or on the sidewalk. Add numbers for your child to practice counting.

# LEARNING AT HOME SCHOOL AGE WEEK 5

April 20th-24th

## Sensory

### Building with Playdough

Make a playdough recipe with your child. Let them help measure and mix the ingredients. Let your child use straws, wooden dowels or toothpicks to build a structure out of playdough.

## Creative Activity

### Recycled Art

Using various, clean items that can be recycled, let your child get creative and build. Once their sculpture is finished, let their paint their recycled art.

## Additional Activities

**Games:** Bring board games outside by using sidewalk chalk to make a life size board game that you and your child can play.

**Sensory:** Newspaper Goop: Taking strips of Newspaper (let your child practice cutting), add water to explore within a sensory bin or table.

**Creative:** Painted Pots: Using small ceramic pots, Let your child decorate/design/paint to make pots for plants.
