

# LEARNING AT HOME OLDER PRESCHOOLER WEEK 10

May 25th-29th

Dear Families,

We are excited to launch plans for Week 10. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

## Language Development

What do Farm Animals give us?

Talk with your child about what farm animals give us. What can they buy at a farm or the store and what animal did it come from.

## Social-Emotional Development

Being a Good Friend

Talk with your child about what it means to be a good friend. Write down their ideas about being a good friend. Help them learn about turn taking, caring for others, and being kind. Include how they want to be treated.

## Physical Literacy

Farm Animal Ring Toss

Use paper plates with the middle cut out to make the rings. Set up stuffed animals or farm animals made from recycled materials. Let your child aim and toss their rings to get them over the animals.

# LEARNING AT HOME OLDER PRESCHOOLER WEEK 10

May 25th-29th

## Cognitive Development

### Sorting Animal Products

After talking about what products that we get from animals, provide your child with pictures of the animals (or stuffed animals) and pictures of the products (or use actually products that you have in your house. Have your child sort the items by what animal provides them.

## Creative Activity

### Bubble Wrap Sheep

Have your child cut a round shape of bubble wrap for sheep's fur. Paint the bubble wrap. Add eyes and popsicle stick feet.

## Additional Activities

**Plastic Egg Letter Matching:** On plastic eggs, write the uppercase letter on the top and lowercase on the bottom. Mix up the eggs and let your child match the uppercase and lowercase letters together.

**Music:** Make corn kernel maracas using corn kernels, ribbons and an empty water bottle. Use your maracas to have a music parade around your house or yard.

**Science: Magic Milk Experiment-** Add milk to a cookie tray. Add drops of food coloring in different spots around the tray. Add a little dish soap to a q-tip that your child can dip in the milk. Watch the reaction.
