

LEARNING AT HOME YOUNG TODDLER WEEK 12

June 8th-12th

Dear Families,

We are excited to launch plans for Week 12. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

Language Development

Please and Thank you

When teaching toddlers to say please and thank you, we need to make sure we are using them ourselves. Place 5 interesting items on the table in front of you. Say to your toddler "Please bring me the car". When they bring it to you, say "thank you very much". If they bring the wrong item to you, you can say "that is the boat. Please bring me the car".

Social-Emotional Development

Row, Row, Row, Your Boat

Sit across from your child, hold hands, and rock back and forth while singing the song row, row, row your boat.

Physical Literacy

Construction Cone Bowling

Fill empty water bottles with orange filling (shredded construction paper or paint). Let your toddler throw a ball to them knock them over.

LEARNING AT HOME YOUNG TODDLER WEEK 12

June 8th-12th

Cognitive Development

Will it roll?

Make a ramp using cardboard or posterboard. Encourage your child to send items down the slide. Count the items as your child send them down. Talk to your child about what items rolled and which ones didn't.

Creative Activity

Crane Ball Painting

Dip ball in paint add to a container along with paper. Close container and let your toddler shake.

Additional Activities

Construction Site: Provide your child with a construction vest, cones, and play tools (store bought or homemade with your child). Encourage your child to pretend to be a construction worker building and driving construction trucks.

Building with Blocks: Let your toddler pretend to be a construction worker using blocks or other building materials you have. Encourage them to build houses and buildings.

Sensory: In a sensory bin add shovels, trucks, sifters, buckets and sand/dirt/water. Let your child explore with the items in the sensory bin to build.
