

LEARNING AT HOME SCHOOL AGE WEEK 23

August 24th-August 28th

Dear Families,

We are excited to launch plans for Week 23. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

STEAM

Science, Technology, Engineering, Art
and Mathematics

Cooking/Baking

Make your favorite recipe with your child. Let them help you measure out the ingredients and add them to your mixture. Once you are finished baking/cooking, share your creation with your child.

Science Experiment

Paper Airplane

Make different paper airplane designs with your child using construction paper. Test out the paper airplanes outside to see which airplane can fly the farthest.

Physical Literacy

Body Part Bubble Pop

Blow bubbles for your child and have them pop the bubbles using different parts of their body. Have them pop the bubbles with different body parts such as their head, feet, toes, fingers, hands, arms, elbows and knees.

LEARNING AT HOME SCHOOL AGE WEEK 23

August 24th-August 28th

Sensory

Oobleck

Mix together cornstarch and water to make an oobleck. Add toy animals or nature items for your child to explore with.

Creative Activity

Self Portraits

Provide your child with a variety of materials that they can use to make a self portrait of them-self. Let your child look in a mirror while they are painting to see their features as they create their self-portrait.

Additional Activities

Book Reading: Let your child sit down and read a book with you. They can choose any book they want to read. Sit back and listen to them and help with words when needed.

Playdough: Make a Kool-Aid playdough with your child using 2 cups flour, 1/4 cup salt, 1 1/2 tbsp oil, 1 package of Kool-Aid, and 1 cup water. Let them use the playdough to make sculptures of people.
