

# LEARNING AT HOME YOUNG TODDLER WEEK 6

January 4th- January 8th

Dear Families,

We are excited to launch plans for Week 6. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

## Language Development

### Book Reading

Read books with your toddler. Bring their attention to the pictures as you introduce them to new vocabulary from the book.

## Social-Emotional Development

### Play Kitchen

Play pretend kitchen with your toddler. Take turns pretending to cook and serving food to each other. Practice manners by modeling for your toddler while asking for food or utensils.

## Physical Literacy

### Color Hop

Make colored dots out of construction paper or with chalk. Have your toddler hop on the different colors and identify the colors.

# LEARNING AT HOME YOUNG TODDLER WEEK 6

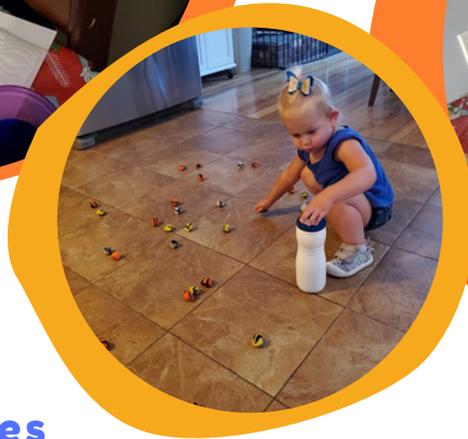

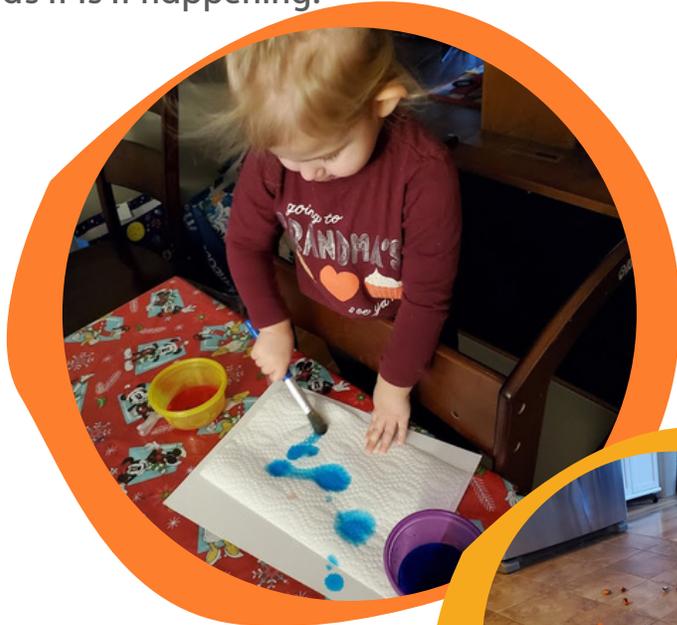

January 4th- January 8th

## Cognitive Development

### Paper Towel Art

Provide your toddler with eye droppers (or a paintbrush) and watercolors (for food coloring in water). Let your toddler place different colors on the paper towel using the eye dropper. Bring their attention to how the paper towel absorbs the water and spreads out. Talk to them about the process as it is happening.

## Creative Activity

### Icy Winter Textured Scenes

Let your toddler use salt and flour with glue to paint on paper. Talk to them about how the different materials feel as they paint.

## Additional Activities

**Ramps:** Make ramps with your toddler. Test out rolling different items down the ramp. Talk to your toddler about what items roll and which items do not.

**Water Table:** In a sensory bin, add colored water, cups, basters, funnels, and sifters. Let your toddler explore with the colored water.

**Pom Pom Drop:** Cut holes into the top of a container. Provide your toddler with pom pom that they can put in the holes. You can practice color recognition and counting while doing this activity.
