

# LEARNING AT HOME OLDER TODDLER WEEK 10

February 1st- February 5th

Dear Families,

We are excited to launch plans for Week 10. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

## Language Development

### Snow Activities

Talk to your child about what their favorite snow activities are. Do they like to go sledding? Do they like building a snowman?

Favorite Snow  
Activities

- Building a Snowman
- Playing Outside
- Eating Snow

## Social-Emotional Development

### Snowball Machine

Make pretend snow cones with your child using snow (or crushed ice). Add the snow to a bin with a muffin tin and an ice cream scoop. Let them scoop the snow and fill the muffin tin. Work together as a team to fill the muffin tin.

## Physical Literacy

### Snowman Knock down

Draw a snowman face on 6 plastic cups. Build a pyramid with the snowman cups on a table or chair. Let your child practice their throwing skills by throwing a snowball to try to knock over the snowmen.

# LEARNING AT HOME OLDER TODDLER WEEK 10

February 1st- February 5th

## Cognitive Development

### Simple Puzzles

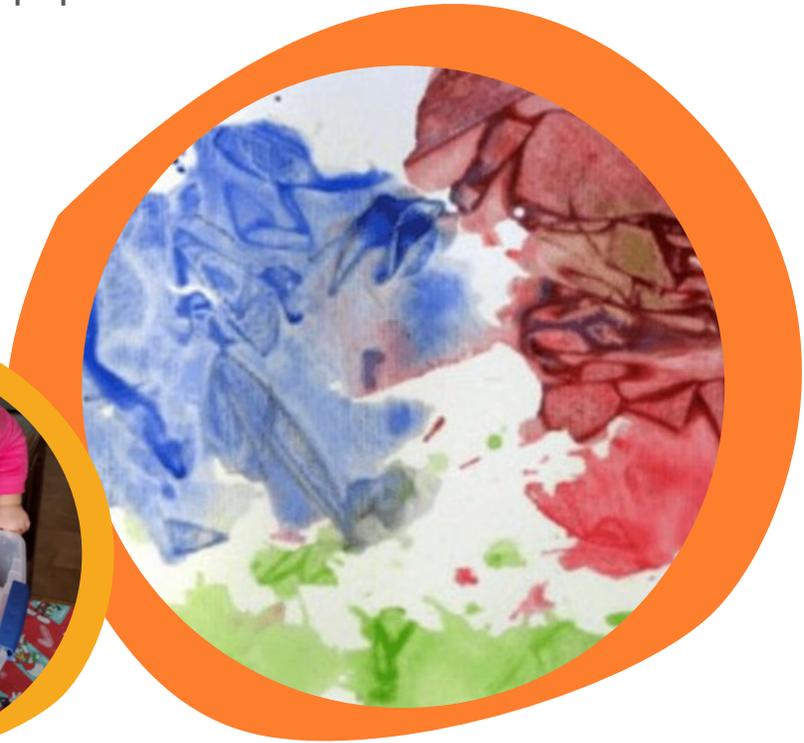

Provide your child with simple puzzles that they can do or give them ones that might be a challenge. Let them practice putting the puzzles together using their eye-hand coordination.

## Creative Activity

### Textured Paintings

Provide your child with glue, paper, and watercolor paint. Let your child create a design on the paper by squeezing the glue onto the paper. Let this dry completely. Then let your child paint over their design with watercolor paints. You can even sprinkle salt over it and it will soak up the excess color to make a snowy effect on the paper.

## Additional Activities

Outside: Get your child outside to play on a nice day. Bundle them up and let them enjoy being outside. If there is snow, build a snowman, build a snow fort, or go sledding.

Snow Exploration: Provide your child with snow, shovels, small buckets, and toys. Let your child explore with the toys in the snow.
