

LEARNING AT HOME SCHOOLAGE WEEK 9

January 25th- January 29th

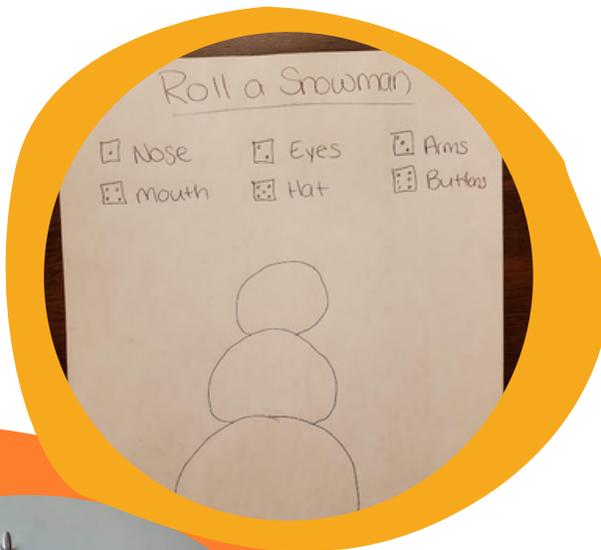

Dear Families,

We are excited to launch plans for Week 9. There are some great options for physical activities in an indoor environment. Additionally, some simple ideas with materials available at home to support the creative undertakings. We hope you enjoy this week's plan with your little ones!

STEAM

Roll a snowman

Have the child make an outline of a snowman on a paper. Give them a dice and have them roll to get the finishing details of their snowman. 1- Nose, 2- eyes, 3- Arms, 4- Mouth, 5- Hat, 6- buttons

Science

Snow Volcano

Have your child make a volcano in the snow. Provide them with baking soda and colored vinegar (mix food coloring in it). Let them add the baking soda inside the volcano and slowly add the vinegar. Watch the volcano erupt. If there is not snow, you can make it out of crushed ice.

Physical Literacy

Knock 'em down

Build a pyramid with plastic cups on a table or chair. Let your child practice their throwing skills by throwing a snowball to try to knock over the pyramid.

LEARNING AT HOME SCHOOLAGE WEEK 9

January 25th- January 29th

Sensory

Kinetic Sand

Create your own kinetic sand using 2 1/2 cups sand, 1 1/2 cups cornstarch, 1/2 cup vegetable oil. Add color using food coloring or use colored sand. Let your child explore with the sand using sand mold and other toys.

Creative Activity

Snowball Painting

Provide the children with snowballs (pom poms or cotton balls), white and light blue paint, and paper. Let your child use the snowballs to create a snowball painting.

Additional Activities

Winter Brain Breaks: Provide your child with winter brain break ideas. Encourage them to act out the different movements. Winter Brain Break Ideas: Jump over an icy brook, catch snowflakes with your hands, reach up high for an icicle, tiptoe over icy water, pretend to build a snowman, march in place, stretch, walk backwards, hop up and down, stir hot chocolate.
